NEVADA POPULATIONS OF *POLITES SABULETI*. II. REPLACEMENT NAME FOR *POLITES SABULETI PALLIDA*

GEORGE T. AUSTIN

Nevada State Museum and Historical Society
700 Twin Lakes Drive, Las Vegas, Nevada 89107

Several unfortunate errors appeared in a recent paper (Austin, 1987), and these require correction. The name *Polites sabuleti pallida* (*op. cit.*:9) is a homonym of *Pamphila pallida* Skinner (1911). I thus propose the following as a replacement name:

Polites sabuleti basinensis, *nom. nov.*

The description, types, type locality and diagnosis remain as in Austin (*op. cit.*:9-10). The name reflects the central Great Basin distribution of the phenotype.

In addition all the figure legends are placed with the incorrect figures. These should be corrected as follows:

- p. 15. Figures 1a and 1b are Figures 2a and 2b and take those captions.
- p. 16. Figure 2a is Figure 3a and takes that caption.
- p. 17. Figure 2b is Figure 3b and takes that caption.
- p. 18. Figure 3a is Figure 1a and takes that caption.
- p. 19. Figure 3b is Figure 1b and takes that caption.
- p. 20. Figure 4a is Figure 4b and takes that caption.
- p. 21. Figure 4b is Figure 4a and takes that caption.

ACKNOWLEDGEMENTS

I thank C. A. Bridges for bringing the homonymy to my attention and to L. D. and J. Y. Miller for allowing me to make these corrections.
