

~ NEW COURSE LISTING ~
INVERTEBRATE FIELD BIOLOGY
ENY 3163/5164

Summer Session B; 3 Credit Hours
Monday and Wednesday 8:00-12:15 P.M.
Steinmetz Hall; Room 3118

Instructor:
Akito Kawahara

Prerequisites: None.
BSC 2005+2006 or 2007+2008, or 2010+2011 recommended.

Invertebrate Field Biology: Students in this course will examine and collect invertebrates in the field, and learn about the major groups of invertebrates and their conservation through lectures and hands-on labs. Field trips will take place weekly during the class, and students will also be encouraged to collect specimens on their own. Field trips are tentatively planned for: Santa Fe River, Paynes Prairie/Lake Wauburg, Seahorse Key, O'Leno State Park, and Cedar Key.

Contact: Dr. Akito Kawahara. Office: 218 McGuire Hall, Florida Museum of Natural History,
