

Geomorphology Mystery

Group Members:

Photo # _____ Location (if noted on Photo): _____

Description of feature shown in picture:

Possible Geomorphological Process:

1. Process: _____

a. Justification

2. Process: _____

a. Justification

Planetary feature necessary for this process:

(Think about this...if my planet shows evidence of weathering from animal activity, what would have been present on that planet that allowed that geomorphological feature to form? Be Specific in your answer.)

Presentation Notes:

(How will you convince your audience that the geomorphological process you identified is in fact what happened on your planet? What forms of evidence could you find that could support your answer?)
