

# Shark Anatomy 101

## **Background:**

This is a classroom activity to assist students in identifying anatomical features of sharks.

## **Materials:**

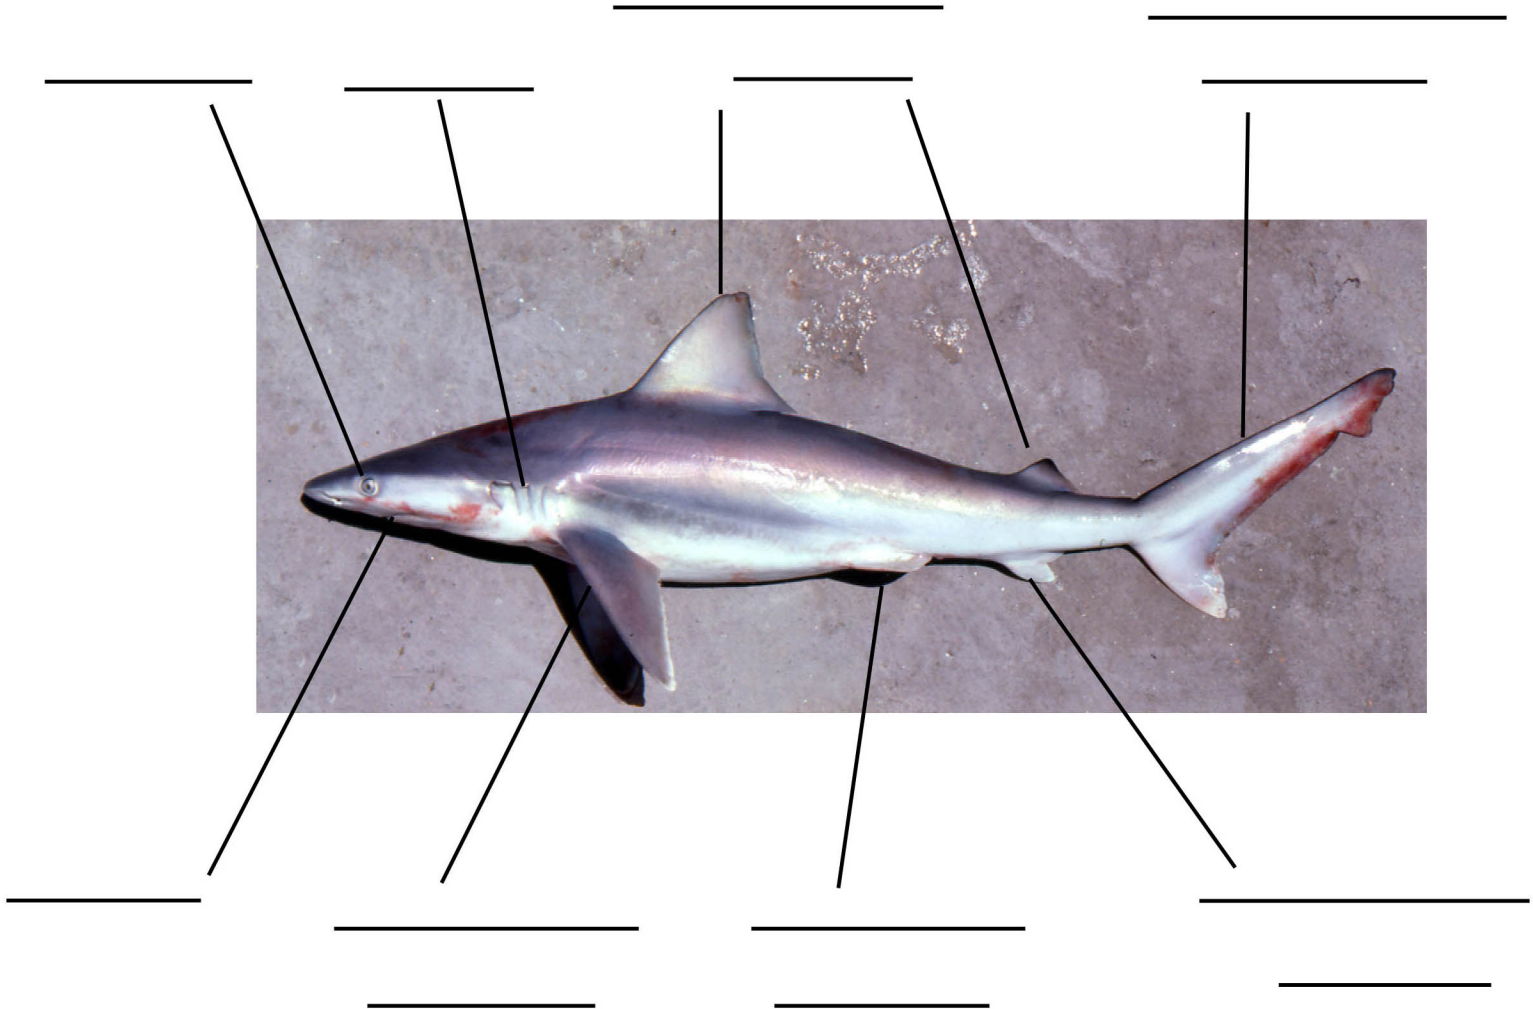

Shark anatomy handout and shark anatomy key for the educator

## **Classroom Activity:**

- Use an overhead projector or chalkboard drawing to illustrate the body of a typical shark.
- Pass out the shark anatomy sheets to students.
- Have the students fill out their activity sheets.
- Quiz the class and have a student come to the board to label the shark fins correctly.
