Permanent Exhibits

Butterfly Rainforest & Butterfly Exhibits

Stroll through this screened, outdoor enclosure with tropical plants and hundreds of living butterflies. View thousands of Lepidoptera species on the “Wall of Wings” and see scientists working in the Butterfly Rearing Lab and research labs.

Florida Fossils: Evolution of Life & Land

Experience the last 65 million years of Florida’s history and walk through time beginning with the Eocene, when the state was underwater, to the Pleistocene, when the first humans arrived 14,000 years ago. View more than 500 fossils, most found within 100 miles of Gainesville.

Northwest Florida: Waterways & Wildlife

Follow water as it flows through the unique environments of northwest Florida, the most biodiverse region of the state. Explore a hardwood hammock featuring a life-size limestone cave, a seepage bog with carnivorous plants, a Native American trading scene and more.

South Florida People & Environments

This exhibit celebrates the story of native people in South Florida and the environments that supported them. Walk along a boardwalk through a mangrove forest, travel underwater to view larger-than-life marine creatures, visit the house of a Calusa leader and more.

Exploring Our World

Learn about current Museum and UF research initiatives in the science, technology, engineering and math fields, as well as the Museum’s more than 100-year history through videos, photographs and discovery drawers featuring objects from its world-class collections.

Fossil Plant Garden

This outdoor exhibit is landscaped with modern species of plants whose ancestors lived millions of years ago and are preserved as fossils around the world.

Florida Wildflower & Butterfly Garden

This outdoor demonstration garden showcases Florida’s native wildflowers and their importance as host and nectar plants for Florida’s native butterflies.

Our Energy Future

Explore activities about energy consumption and conservation. Discover how much energy we use daily and how individual behaviors can make a difference. Learn about renewable energy and its future potential for Florida.

Discovery Zone (Open On Weekdays Only)

Encourage your child’s curiosity and wonder in the ever-changing hands-on Discovery Zone! View preserved specimens from Museum collections and a variety of science resources that provide many opportunities for families to learn about the world together.

Featured Exhibits

Survival of the Slowest

Jan. 23 - Sept. 12, 2021

Meet animals that have survived for millions of years despite being very slow, and discover the interesting sides of adaptation. See LIVE wildlife, including a two-toed sloth, chameleon, iguana, hedgehog and more!

Tiny Titans: Dinosaur Eggs and Babies

Sept. 25, 2021 - Jan. 9, 2022

Take a rare and exciting look at the lives of dinosaurs through their eggs, nests and embryos. This remarkable exhibition offers an astounding array of authentic dinosaur specimens collected from around the world. See exciting lifelike models of embryos and hatchlings, colorful illustrations of dinosaur family life and stunning photographs of some of the world’s most renowned dinosaur hunters along with their extraordinary discoveries.

East & West Gallery Exhibits

Enjoy smaller rotating exhibits featuring photography and other art with natural history themes. Ask at the front desk or check the Museum website for a list.
