

# SENSORY MAP

For more information and updates, visit [www.floridamuseum.ufl.edu](http://www.floridamuseum.ufl.edu).

See reverse for exhibit information.

# Accessibility Tip Sheet

- If you need assistance with anything during your visit, please notify a Museum staff member or volunteer.
- Some galleries have sound and light effects that play throughout the day. These areas will be marked accordingly.
- Look for symbols on the Museum Map (reverse side) to help guide your visit.
- Restrooms are located in the Denny Gallery and near the West Gallery.

## What to Expect

**Butterfly Rainforest** - This bright, screened outdoor enclosure features tropical plants and hundreds of living butterflies.

**Butterfly Exhibits** - In this bright area, visitors may view videos and thousands of Lepidoptera species, as well as the Butterfly Rearing Lab and research labs where scientists work.

**Florida Fossils: Evolution of Life & Land** - This generally quiet, low-lit area allows guests to experience the last 65 million years of Florida's history and view more than 500 fossils, both large and small.

**South Florida People & Environments** - This exhibit includes mostly low-lit areas and multiple loud sound effects. The underwater walk-through gallery and Calusa leader's house can be dark and disorienting. Walk along a boardwalk through a mangrove forest, travel underwater to view larger-than-life marine creatures and more.

**Exploring Our World** - This bright area features a whale skeleton suspended from the ceiling and two videos describing current Museum and UF research initiatives in the science, technology, engineering and math fields.

**Featured Exhibit** - This area features time-limited exhibits, which change throughout the year. Check with a Visitor Services representative or visit [www.floridamuseum.ufl.edu/exhibits/featured](http://www.floridamuseum.ufl.edu/exhibits/featured) for more information regarding the current exhibition on display.

**Our Energy Future** - This bright, highly tactile area provides information on how much energy we use daily and how individual behaviors can make a difference.

**Discovery Zone** - This hands-on exhibit is filled with stimulating activities, colors and sounds. It is designed for our youngest explorers, ages 8 and under.
