

PCPPIRETEACH

G. Scientific Illustration Reflection Prompt:

Tell me what you know about the ways scientific illustration is different from regular artwork. How do scientists use scientific illustration to record their observations and research? Tell me about your illustrations.

How to write a peer review reflection

Writing **Your** Reflection:

- Date your reflection
- Copy the **Title** and the **Prompt** for your reflection
- Answer the prompt sharing your thoughts and ideas in at least **7 sentences**
- **Exchange your reflection** with another scientist.

How to Write Back to Another Scientist:

- Read the other scientist's reflection
- Write back to them in this special way:
 1. Write about something you found interesting in their reflection.
 2. Write about new information that you know, to teach them something new.
 3. Ask them a science question that connects to the prompt.
 4. Sign your name and return the science notebook to the scientist!
